Experience

Hcl Technologies

June 2022–September 2024

Software Engineer

Lucknow, U.P

- Developed and maintained web application using React.js with Redux on the frontend and Node.js with Express.js on the back end.
- Implemented RESTful APIs to connect front-end interfaces with back-end services.
- Conducted API testing using Postman to validate endpoints and ensure data integrity and security.
- Participated in regular meetings to resolve client issues and offered technical support to clients and internal teams.

ClickValley OPC PVT LTD

July 2021–June 2022

FullStack Engineer

Gurgaon, Haryana

- Collaborated with UX/UI designers and backend developers to ensure seamless integration of frontend components and backend services.
- Used Git and GitHub for version control and collaborated with team members using Git workflows.
- Focus on responsiveness for mobile and desktop and data binding using backend.

Lakshya It Solutions

January 2021–June 2021

MERN Stack Intern

Kanpur, U.P

- Learned Fullstack web development, HTML, CSS, Bootstrap, JavaScript, React.js, Node.js, MongoDB.
- Created Projects with team and particular also.

Projects

SupplyPost/React.js, Redux, Node.js, Express.js, Mongoose, Passport.js

- That was the supply-chain project, I have done all work some from front-end and all back-end part, have completed all data binding.
- I have also worked on responsiveness on that for mobile, Desktop.

PlacementCell/GitHub/Node.js, Express.js, EJS, Passport.js, Mongoose

- Developed a robust placement system to manage the student's placement details providing essential functionalities such as users and company registration, update, deletion and search.
- Integrated with functionalities such as scheduling interviews and providing the results of each interview.
- Integrated MongoDB to store and manage user data and session details efficiently.
